COMPANY PROFILE

SARL TAMMA is an Algerian company operating in the study, design, and realization of large industrial infrastructure projects of all kinds.

SARL TAMMA has inevitably positioned itself as a major partner in the national market for large-scale projects, a position acquired through the expertise of its employees and its significant material resources, encompassed within an entrepreneurial culture based on continuous innovation, quality, and rigor, in order to better meet the specific needs of the market.

SARL TAMMA holds a professional qualification and classification certificate in category SEVEN (VII) for public works, hydraulics, and building construction. Since then, it has gained increasingly impressive and exemplary experiences in various construction fields of large projects, with the constant concern of ensuring customer satisfaction in terms of quality and costs while respecting the best project completion deadlines."

OUR MISSION

For over 25 years, day after day, the employees of SARL TAMMA, enriched by their diversity of education, background, and culture, cultivate excellence to offer independent and customized engineering solutions tailored to meet the most demanding needs of our clients."

OUR VISION

With its policy of excellence and drawing strength from its history, SARL TAMMA boldly approaches the future and the new expertise in construction, such as integrating sustainable and environmental quality, modernizing material resources, and establishing the most efficient business management systems.

QUICK REPLY

EFFICIENCY

1-Technical Expertise :

SARL TAMMA has a qualified and experienced team in the fields of electrical, mechanical, and civil engineering."

2-Quality and Reliability :

SARL TAMMA operates according to strict quality standards to ensure the safety and performance of installations.

3-Reactivity :

SARL TAMMA provides a rapid troubleshooting service to minimize downtime and disruptions

4-Customization:

SARL TAMMA provides tailor-made solutions adapted to the specific needs of each client

OUR SECTORS OF ACTIVITY

Industrial and Energy Construction (EPC)

1-Electricity Production:

- Power Plants (of various types)

2-Electricity Transmission:

- Overhead High Voltage (THT), High Voltage (HT), and Medium Voltage (MT) Lines
- Underground High Voltage (THT), High Voltage (HT), and Medium Voltage (MT) Lines

3-Electricity Transformation:

- Transformation Substations 400/220kV
- Transformation Substations 220/60/30kV
- Transformation Substations 60/30kV and 60/10kV

4-Electricity Distribution:

- Medium Voltage/Low Voltage Distribution Substations

Pre-commissioning work, commissioning and commissioning of electrical installations and equipment

1- Power plants (of different types)

2-GIS stations 400KV, 220KV and 60KV

3-Classic substations 400KV, 220KV and 60KV

Electrical and mechanical maintenance operations

- 1- Installation of photovoltaic panels
- 2- Establishment of photovoltaic power plants

Electrical and mechanical maintenance works

- 1- Transformers (of different types)
- 2- Compressors
- 3- Turbines (gas and steam)
- 4- Generators
- 5- All electrical installations (lighting, fire detection, surveillance)

OUR SECTORS OF ACTIVITY

Civil engineering works for industrial and hydraulic projects

- 1-Civil engineering for power plants
- 2-Civil engineering for electrical stations and substations
- 3-Piping

Public works

- 1- Construction and repair of drilling and workover platforms
- 2- Repair of access roads
- Infrastructure: roads, earthworks
- 3- Opening service roads, trenching
- Public works Various works

Various works

- 1-Wiring of electrical cabinets
- 2- Installation and commissioning of industrial fire protection systems
- 3- Installation and commissioning of surveillance systems
- 4- Installation and commissioning of telecommunication equipment (fiber optic and telephone)
- 5- Rental of construction equipment and machinery Civil engineering works for industrial and hydraulic projects:

OUR HUMAN RESOURCES

Human resources undoubtedly represent the most precious resource we have. The SARL TAMMA team possesses remarkable adaptability and expertise, allowing it to enhance all other resources. It consists of a competent and very strong management core covering all required qualification categories.

OUR MATERIAL RESOURCES

From year to year, the material resources of SARL TAMMA not only undergo significant evolution but also experience continuous growth due to regular renewal and rigorous adaptation to the requirements of our clients. Engaged investment programs have considerably strengthened the logistics system's striking power, enabling constant equipment renewal and evidently impacting immobilization rates.

In addition to its highly diversified fleet of resources, SARL TAMMA manages a considerable database of suppliers for vehicles and machinery that can be mobilized at any time. Having developed partnership relations with these suppliers, these resources have become a true extension of the company's logistics.

OUR MATERIAL RESOURCES

EARTHWORKS / ROAD AND DRAINAGE EQUIPMENT VRD

OUR MATERIAL RESOURCES

CONCRETE PRODUCTION EQUIPMENT

- 2 Fixed Concrete Batching Plants with a capacity of 120 m³/h each
- 1 Mobile Concrete Batching Plant with a capacity of 35 m³
- 4 Fiori Self-loading Concrete Mixers
- 14 Concrete Mixer Trucks (9 cubic meters each)
- 4 Concrete Pump Trucks

HANDLING EQUIPMENT

- 05 mobile cranes of various tonnages,
- 04 4x4 cranes with 80t capacity,
- 03 crane trucks,
- 02 telescopic forklifts

TOOLS FOR LINE AND SUBSTATION WORK

- 04 lifting masts with winch,
- 02 brake-unwinders (5 tons),
- 02 hydraulic pullers (9 tons),
- 06 sets of unwinding tools ,
- 06 sleeve fittings with their matrices,
- Complete aerial unwinding equipment,
- Transformer oil processing machine 01 12000L/H
- 04 construction unwinders with hydraulic lifting

SITE ORGANIZATION AND MANAGEMENT EQUIPMENT

- 11 cabins for sanitary accommodation, 12m
- 05 equipped 6m cabins for offices,
- 6m and 12m storage containers.

ELECTRICAL TESTING EQUIPMENT TOOLS

- Single-phase injection test kits
- Hipot
- Primary kit injection
- Analyzer, Earth/ground resistance tester Micro-ohmmètre
- Thermomètre
- Humidity tester
- Multimeter Injection Kit
- Load bank battery testing
- Spectrometer

VARIOUS TOOLS

- 10 generators of various powers,
- 05 stationary concrete mixers,
- 04 air compressors,
- 02 diesel welding stations 300A (stand-alone),
- 04 mobile welding stations, Complete set of tools for the construction site,
- 4 metal cutting machines,
- 120 Tensioners, 2200 m² of wooden formwork.

Goods transport equipment

- 3 Flatbed Trucks 10t
- 3 Tractor Trucks 6x4 with equipment carrier 60t
- 6 Road Tractors 6x4 with dump trucks 40t
- 2 Tractor Trucks 4x2 with diesel tank
- 15 4x4/4x2 Light Tactical Vehicles
- 4 Road Tractors 6x4 with flatbed trailers
- 10 Utility Vehicles and 10 Light Vehicles

OUR ACHIEVEMENTS

OUR ACHIEVEMENTS

	PROJECT	LOCALISATION	PROJECT OWNER
01	400/220 KV Substation	LARBAA , W.BLIDA	SONELGAZ STOS
02	GIS (Gas Insulated Switchgear) 60/30 KV Substation	EUCALYPTUS, W. ALGIERS	SONELGAZ ENGINEERING
03	GIS (Gas Insulated Switchgear) 60/10 KV Substation	BOUZEREAH, W. ALGIERS	SONELGAZ ENGINEERING
04	400/220KV Injector Substation	AIN ARNAT W. SETIF	SONELGAZ STOS
05	PACK• 60/30 KV Substation	AIN OUESSARA W. DJELFA	SONELGAZ STOS
06	Completion of works at the power plant: Electrical connections, installation and oil treatment of main transformers, withdrawals and MV/LV.	AIN OUESSARA W. DJELFA	SONELGAZ ENGINEERING
07	Testing and commissioning of the MT/LV CHELTERS (Combined High and Low Voltage Electrical Distribution Cabinets) Project TOUT II ADRAR (SONATRACH)	W.ADRAR	SONATRACH
08	Construction of a 400kV overhead power line	MARSAT W.MOSTAGANEM	SONELGAZ STOS
09	Construction of the 400kV Overhead Power Line Break	MAHALMA AL AFROUN HADJRET-ENNOUS	SONELGAZ STOS
10	Underground 60kV interconnection structure (supply of equipment, transportation to site, complete civil engineering works, sorting, and industrial commissioning)	REGHAIA W.ALGIERS	SONELGAZ STOS
11	Construction of an AERO-underground 220kV line for the Masserghine - Cap Blanc Substation, supplying power to the seawater desalination project.	MASSERGHINE- W.ORAN	SONELGAZ STOS
12	Execution of civil engineering works (220KV double feeder cut-off at the armored substation I of the Skikda-Refinery of Skikda connection)	W.SKIKDA	SONELGAZ STOS

OUR ACHIEVEMENTS

PROJECT		LOCALISATION	PROJECT OWNER
13	Completion of Remaining Works (RAR) at the PAK+ Standard 60/30KV Substation.	OUED BELLIL W.GHARDAIA	SONELGAZ ENGINEERING
14	Trenching and fiber optic cable laying works for section number 52 of the 320 km linear stretch starting from kilometer point 320	BORDJ EL HAQUES W.DJANET	ALGERIE TELECOM
15	Trenching and fiber optic cable laying works for section number 55, with a linear distance of 160 km	W.ILLIZI	ALGERIE TELECOM
16	Civil engineering maintenance services	RHOUD ENOUSS	SONATRACH DP/RN
17	Maintenance services for hydraulic networks and installations of the HMD regional directorate	HASSI MESSAOUD	SONATRACH DP/HMD
18	Assembly and disassembly services for 4 1/2" water pipes totaling 28 km in length	OHANET	SONATRACH DP/HMD
19	Turnkey construction of a dolomite production plant (EPC).	AIN MLILA W.OUM EL BOUAKI	ENCC -SPA
20	Assembly and disassembly services for water pipes.	GASSI TOUIL	SONATRACH FOR HMD
21	Refurbishment of sanitation networks for living bases.	TFT	SONATRACH DP/TFT
22	Refurbishment of workover well platforms for the Hassi Messaoud and Gassi fields	HASSI MESSAOUD AND GASSI	SONATRACH DP/HMD
23	Service provision for the installation of submersible pumps and the assembly of hydraulic lines for the industrial water supply of drilling sites.	GROUPEMENT BERKINE	DIS LTD- WEATHER FORD & ENTP- JOINT- VENTURE
24	Rental of power generators and Sahara cabins	BRN	BASP/HMD

OUR ACHIEVEMENTS

PROJECT		LOCALISATION	PROJECT OWNER
25	Dump truck rental and personnel transportation services	BLIDA	INERGA
26	Supply of equipped magazines for administrative archive storage.	HASSI MESSAOUD	GROUPEMENT QC
27	Installation of irrigation systems.	OUARGLA	DSA OUARGLA
28	Bulldozer rental.	HASSI MESSAOUD	ENAGED
29	Construction of a 200-meter water well.	SOUGEUR TIARET	DRE TIARET
30	Construction of the PACK+ 60/30 KV substation	EL BORDJIA MOSTAGANEM	SONELGAZ STOS
31	Execution of horizontal drilling works for the underground connection of 60kV 1&2 National Road + Railway.	SKIKDA VILLE	SONELGAZ STOS
32	Execution of unwinding works for 6.5 KM of power cables, fiber optic cables, and grounding cables, connection and commissioning tests Extension of the existing 60kV line from AKBOU-Simplified Substation to the new AKBOU 2 Substation underground LOT No. 03 and 04."	AKBOU W.BEJAIA	SONELGAZ STOS
33	Construction of the 220 KV line (Power supply for the phosphate plant) with a length of 33km.	BLAD EL HADBA W.TEBESSA	SONELGAZ STOS
34	Execution of assembly and lifting works for the pylons of the 60KV TG mobile ZERALDA evacuation line to the ZERALDA 60/30KV substation.	ZERALDA W.ALGIERS	SONELGAZ STOS

400/220KV SUBSTATION - LARBAA-BLIDA

INJECTOR SUBSTATION PROJECT 400/220KV - AIN ARNAT SETIF

CONSTRUCTION OF THE 400KV OVERHEAD LINE HADJRET ENOSS-TIPAZA

HIGH-PRESSURE GAS PIPELINE SUPPLYING THE ADRAR POWER PLANT, WITH A DIAMETER OF 28" AND A LENGTH OF 34 KM

UNDERGROUND 60 KV CONNECTION PROJECT REGHAIA-ALGIERS

GENERAL CONTRACTOR FOR DOLOMITE PRODUCTION PLANT - AIN M'LILA

REFURBISHMENT OF PLATFORMS AND ACCESS ROADS FOR WORKOVER WELLS, HASSI MESSAOUD

GIS 60/30 KV SUBSTATION PROJECT - EUCALYPTUS, ALGIERS

POLICY OF SARL TAMMA

In order to better serve its clients, for several decades, SARL TAMMA SERVICES has prioritized the sustainability of its governance, its independence, and the continuous development of its team's expertise. In all fields, our teams are more than ever involved in the evolution of our professions, thanks to a fruitful collaboration with project owners, engineers, companies, and all construction stakeholders who trust us.

Objectives based on a defined approach

Our project management is meticulously structured, ensuring the delivery of a quality product.*Haut du formulaire

Continuous improvement

Our work on numerous projects has provided us with the experience to organize and manage any project in the best possible way

QHSE Policy

Certificate: ISO 9001 / ISO 14001 / ISO 45001

Given the stakes, we aim for our company TAMMA to become an ideal and reference partner in project management in Algeria, to be recognized in our areas of expertise: Study and realization and development of energy structures, civil engineering, public works, and hydraulics.

Our approach is to be close and attentive to our clients, stakeholders, and our employees, in a sustainable development approach. This approach is part of a participatory management approach to ensure the sustainability of our company and to enable the involvement of each of us. Haut du formulaire

Our development strategy aims to:

- Ensure the sustainability of the company by increasing its market share.
- Deliver products/services that are compliant and satisfy our customers.
- Reduce or eliminate harm to the health of our employees.
- Control significant environmental aspects considering their impact.

Pour ce faire, nos objectifs sont

To minimize the risks of contamination, particularly hydrocarbon spills and water discharges into the natural environment, in order to achieve our objectives, we commit to complying with applicable legal and regulatory requirements; preventing nuisances and contaminations, and providing the necessary resources for the continuous improvement of our quality, health, safety, and environmental management system.

We delegate to the QHSE director and its representatives the necessary authority to inform, implement, and maintain SARL TAMMA's integrated management system, and to ensure its continuous improvement."
